We have two different Portal for Airline Portal, Customer Portal

Airline Portal: https://airline.drona-aviation.com/AccountV1/Login?ReturnUrl=%2F

Customer Portal: https://oneramp.ammaammayi.in/

Flow:
• Customer raises an enquiry from the Customer Portal
• Airline reviews and either approves the same rate or provides a revised rate
• If the customer agrees, they can accept the rate
• If not, the customer can revise the quote and request a rate reduction
• The airline can respond again with an updated rate

This process continues as a simple back-and-forth negotiation (bargaining) through the system until both parties agree.

Customer Portal:
